

Setting Page-Level Permissions in Google Sites

Note: Before you can grant a user page-level permissions, you must have shared the site with them.

<p>1. From the <i>More actions</i> menu, select <i>Sharing and Permissions</i>.</p>	
<p>2. In the top right, click <i>Enable Page-Level Permissions</i>.</p>	
<p>3. In the dialog box, click <i>Turn on Page-Level Permissions</i>.</p>	
<p>4. In your site hierarchy on the left side of the <i>Sharing and Permissions</i> page, click on the page that you want to set permissions for.</p>	

<p>5. Choose one of the 3 ways this page can update permissions: can view, can edit or is owner.</p>	
<p>6. Once you have made your selections, click Save.</p>	
<p>7. You will now be able to see each person's access level.</p>	
<p>8. Click Save Changes to save your page- level permissions.</p>
