

External Linking to EanesTv Videos

You are now able to link to individual videos on EanesTv for people to view externally. Each video has a URL for you to use to either embed your video in the page or add a link to:

Example:

<http://vod.eanesisd.net/vbp/bartoncreek/BoardVideo.wmv>

All videos can be linked by the string:

<http://vod.eanesisd.net/vbp/Folder Name/Video File Name>

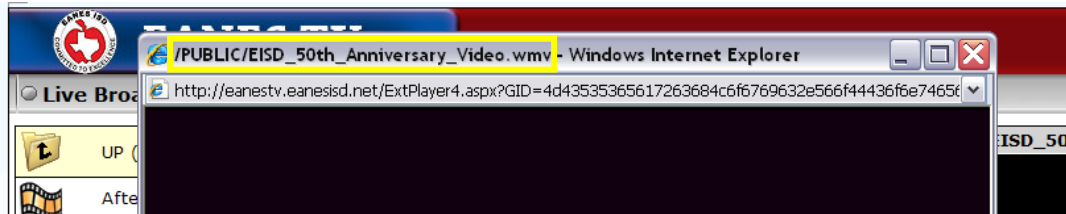

The easiest way to find out the Folder Name and Video file name is by playing the video in an external window:

1. Click on the video you want to link to in the Asset Library. Click on the Launch External Player

Button.

2. At the top of the external player it will show both the folder and the file name.

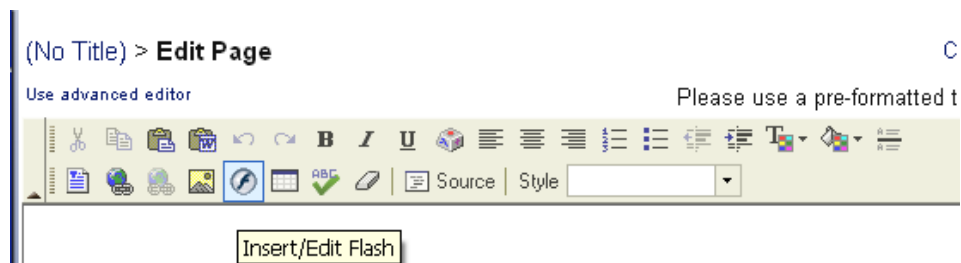

3. The URL for the above video is:

http://vod.eanesisd.net/vbp/PUBLIC/EISD_50th Anniversary_Video.wmv

Embedding Video in SchoolFusion

1. Open the page in SchoolFusion that you would like to embed the video on.
2. Click the Insert/Edit Flash button.

3. Click on the Custom tab.

4. Enter the URL of the video (ie:
http://vod.eanesisd.net/vbp/PUBLIC/EISD_50th_Anniversary_Video.wmv)
5. Enter the Width and Height. Larger: 425x350 Smaller: 320x240
6. If you do not want your video to Auto Play, click on the Advanced tab and uncheck Auto Play.
7. Click OK and Publish your page.

Linking to Video in SchoolFusion

1. Open the page in SchoolFusion that you would like to insert the link on.
2. Highlight the text that you want to become the link.
3. Click on the Insert/Edit Link button. 
4. Enter the URL of the video that you want to link to and click OK.
5. Save/Publish your page.
